AUGUST 2016

GARES – UKAC UPDATE

The arrival of the results of the July 50MHz UKAC event has prompted me to update the members on the activities of the VHF contest enthusiasts in GARES. Hearty thanks to all those who have submitted logs, in particular our newly licenced members who have "had a go" at contesting and I'm sure have learned a lot about their station's effectiveness on the various bands entered.

I have used the RSGB VHF Results web pages to reproduce the tables below which show by band the contributions made by individual members. As of today, 5th August, GARES is in 43rd place out of a total of 104 club entries with club members entering the 6m, 4m, 2m and 70cm contests. Sadly we have no entries in the 23cm and SHF bands.

The contests run through to the end of the year – so don't forget – Tuesday evenings – 19.00 – 21.30 UTC as follows:

- 1st Tuesday in the month 2 metres
- 2nd Tuesday in the month 6 metres and SHF
- 3rd Tuesday in the month 23cms
- 4th Tuesday in the month 70cm
- and if there is a 5th Tuesday in the month – 4 metres

The recommended logging system is Minos logger available for download from the RSGB web site.

If you have not entered a UKAC event and need any more information, feel free to email me at g4cib@outlook.com
